

MEN IN MIND IN HOPKINSVILLE

People of Prominence In The Pearl City of The Penny-royal.

BIOGRAPHICAL SKETCH NO. 47.

Hustling Young Coal Merchant And Loose Floor Warehouseman.

This time it is Indiana that has been called upon to supply Hopkinsville with a hustling young business man, for the third time in this series of sketches. Although he came here from Springfield, Tenn., Alfred E. Jackson, or Fred Jackson as he prefers to be called, was born in Brazil, Ind., in 1884, but in 1889 left Indiana with his parents for Springfield, Tenn., where he was reared to young manhood. In 1905 he came to this city to be a book-keeper for the Forbes Manufacturing Co., and filled

this place for two years, when he was seized with a desire to go South and accepted a place in a bank at Pensacola, Fla. He soon found that there is no place like Kentucky and no home like Hopkinsville and after fourteen months he came back and resumed his old connection here. In 1908 he bought out the coal department of the Forbes Company and went into business for himself, making a success from the start. He has made money and has invested wisely in real estate and now owns valuable property where his coal office and loose floor warehouse adjoining it are located. In connection with D. M. Butler he has been in the tobacco business for two or three seasons. He also went into a still more important partnership a few weeks ago, when he was married to Miss Maggie True, a beautiful society girl of Springfield, Tenn. He has taken a place among the most successful young business men of the city and is prominent socially and in other ways. He holds membership in the Hopkinsville Business Men's Association, in the Travelers Protective Association and the Baptist church.

PROSPECTS BRIGHTEN

Rain Has Made Black Patch Farmers Optimistic.

Clarksville, Tenn., Aug. 12.—The meeting of the Planters' Protective association was well attended Monday. Among the visitors present were General Manager F. G. Ewing, Assistant Manager James Cotts, General Inspector W. W. Riddford and B. M. Trabue, chairman of Christian county.

The reports from the various districts were more optimistic, as a nice rain had fallen over the entire county Saturday and Sunday, and already a new growth was seen on tobacco and corn. The estimates on the tobacco ranged from 25 to 50 per cent, or an average of 35 per cent for the county. After the conclusion of the roll called, Mr. Trabue, by request, reported as to conditions in Christian county, saying that the crop was far short of what was expected, and very inferior.

Ledford-Reeves.

Miss Herodon Reeves and Mr. Sterks Ledford, a popular South Christian couple surprised their friends by eloping Sunday night to Clarksville, where they were married by Magistrate Pollard. Their parents thought they were at church.

The Organization of Division Boards.

Christian county is divided into eight educational divisions. Each educational division is divided into sub-districts, in which there is located one white school over which one trustee presides. The trustees in the various divisions meet annually at the call of the Superintendent to elect a Chairman of the division and this Chairman becomes a member of the County Board of Education. These boards must be organized within thirty days after the election of the trustees. Supt. Foster, because of the two institutes this month, is pressed for time, consequently, he has planned a whirlwind organization of these boards. He will use an automobile and organize three on Thursday, four on Friday and one on Saturday.

On Thursday, Aug. 13th, he will organize Educational Division No. 5 at Newstead at 10 o'clock a. m.; Educational Division No. 6 at Beverly

LIGHTNING DESTROYS BARN IN BOYLE COUNTY

Danville, Ky., Aug. 12.—During a severe thunderstorm in the northwestern portion of Boyle county yesterday afternoon, lightning struck a large barn belonging to Everett Bester, of the Burgin neighborhood. Mr. Bester and Will Robinson had just driven an automobile into the barn, which stood directly on the road, and were still in it when the bolt descended. The men were stunned, but recovered to find the barn in flames. They were barely able to escape with the automobile from the building, which was destroyed with practically all of its contents.

Lightning also killed four valuable horses belonging to Allen S. Ecken, of Mercer county, near Burgin. A fifth horse was injured, but it is thought that it will recover.

DR. BEAZLEY Specialist

(Eye, Ear, Nose and Throat.)

MERCHANT AT COBB

Is Shot From Ambush And Wounded In Leg Saturday Night.

Late Saturday night, while going home from his store, Lee Sizemore was fired on several times from ambush and painfully wounded, at Cobb, Ky. Only one bullet struck Mr. Sizemore, it passing through his leg just above the knee.

The shooting is thought to be the final outcome of several threats made on Mr. Sizemore. He has received three anonymous letters lately containing threats. The identity of the assailant is thought to be nearly established.

The Princeton Leader says three men opened fire on him, two of the men using shot guns and the other a pistol, but fortunately for Mr. Sizemore, the men using the shot guns were bad marksmen, and he was only struck by a bullet from the pistol. However, had he not brought his automatic pistol into play, his assailants would no doubt have finished him up in quick order.

Mr. Sizemore has gone to Paducah, where he will remain until his wound heals.

PROGRESS IS THE WORD

Improvements Now Under Way In The Big Store of Wall & McGowan.

Quite extensive improvements on the interior of Wall & McGowan's store building were started about a week past and are now under way. These improvements will add greatly to the looks of the store on the inside, as well as to the comfort and facilities of the building.

A steam heating plant will be installed, which will be a great improvement over the old way of heating by stoves. The office will be removed from the center of the store room to the rear on the south side. This will give much more room for the stock and for selling purposes. Following up these improvements many other changes will be made in the present arrangement of the interior.

WHAT WILL YOUR HARVEST BE?

The nations of Europe are calling their farmers from the wheat fields to the battlefield. Horses that should be pulling the plows are hitched to the cannon and hands that should be preparing the ground for next year's wheat crop are grasping the sword.

EUROPE'S HARVEST OF DESTRUCTION CALLS FOR AMERICA'S HARVEST OF WHEAT.

HERE'S THE GOODS THAT WILL DO THE WORK.

The nations that produce a Billion Bushels of Wheat have become consumers only and you must feed them.

500,000,000 BUSHELS MORE WHEAT MUST BE PRODUCED.

Ten bushels per acre must be added to America's yield, and \$10.00 per acre will be added to the bank account of every American farmer who does his duty.

Use 100 pounds more GLOBE FERTILIZER per acre than you did on the 1914 crop and add \$10.00 to your bank account for each acre you plant to wheat.

Let the other man experiment with "Cheap Goods" and unknown brands while you use the Fertilizer that is tried and true.
